Contact

 Portfolio

Profile

Game Programmer with a proven track record as a lead on collaborative team projects. Expert at crafting designer-facing tools and systems that bridge the gap between engineering and narrative, with a distinct specialization in atmospheric narrative design and deep diegetic mechanics.

Skills

- **Unity**
- **Unreal Engine**
- **GameMaker**

- **Godot**
- **Figma**
- **Notion**

With proficiency in C#, GDScript, Java, and Unreal Blueprints.

Experience

CGDA Arcade Jam 2026 Winner May 2026

Calgary, AB

- Developed ***Last Responder*** in a team of four people for the week-long Calgary Game Developer Association’s Arcade Jam.
- Recorded, Edited, and wrote the opening cinematic for the game.
- Programmed and designed the persistent singleplayer and multiplayer scoreboards for the game.

Untitled Island Game June-August 2026

Calgary, AB

- Designer, Programmer, and writer on ‘Project Island’, our Unity6 Capstone project for the Advanced Game Development program at Bow Valley College.
- Programmed and Implemented a monster-behavior system styled after the one in Alien Isolation, along with editor tools to configure it.
- Created a procedural IK system for a spider-like enemy that can animate in any terrain.

Suite Revenge January-April 2026

Calgary, AB

- Lead Designer and Programmer for ***Suite Revenge***, a noir action game prototype made in Unity6 for a Rapid Game Development course.
- Designed a robust combat system that allowed designers to jump in and building interesting boss fights quickly through ScriptableObjects.
- Designed a modular player controller that allowed for unique mechanics and effects for each boss fight.

Education
